

ACTA-16-002

Please find below a summary of ISED outgoing activities since the last ACTA meeting in October, 2015:

**CS-03 Part I**, *Requirements for Terminal Equipment (TE) and Related Access Arrangements Intended for Direct Connection to Analog Wireline Facilities*, Issue 9, Amendment 5, was published on March 3, 2016.

Main changes introduced follow:

- Addition of grounding requirements
- Addition of minimum REN value
- Registration Requirements for TE as TAPAC Bulletin 2013-02
- Modification of sequence of equipment testing

**CS-03 Part VIII**, *Requirements and Tests Methods for Digital Subscriber Line (xDSL) Terminal Equipment*, Issue 9, and Amendment 5, was published on March 3, 2016.

Main changes introduced follow:

- Addition of grounding requirements
- Modification of Sequence of equipment testing
- Addition of Technical Requirements in Sections 1.2
- Addition of a paragraph on Network Protection Requirements - Section 3.0
- Addition of PSD values requirement at 30175 kHz

**DC-01**, Declaration of Conformity and Registration of Terminal Equipment procedure, Issue 6 of DC-01 was published on January 20, 2016.

Amendments in DC-01 were introduced to incorporate the implementation of the Department's new online tool (Spectrum Application Modernization – Commercial Software Implementation, SAM-CSI)

TAPAC (Terminal Attachment Programme Advisory Committee) - No TAPAC meeting has been scheduled. The next meeting would be scheduled as needed based on TAPAC members' request.

Kind regards,

Magdoly
