Industry Opinion on Form of Declaration To Be Used for Supplier's Declaration of Conformity

TIA TR41 subcommittee, TR41.11 "Administrative Regulatory Considerations" has been working on various issues relating to the FCC Report and Order on Part 68 Streamlining. As a result of those discussions we have come to consensus relating to the written declaration one might use to satisfy the requirements for Supplier's Declaration of Conformity. We felt it important to relay this information to the Administrative Council on Terminal Attachment.

Members of TIA TR41.11 have considered the requirements for the content of the SDoC and consider that it is sufficient to only include the information required by 68.324. It is recommended that this document should be consistent with ISO Guide 22 requirements. No additional form or structure should be imposed.

Sincerely,

Greg Slingerland
Chairman, TIA TR41.11

CC: Mr. Steve Whitesell, Chair TR41
Mr. Ed Hall, VP Technology Development, ATIS
