ADMINISTRATION

Use existing DoC as a template:
Select One Fill

Post a DoC

Please complete the entire online form or upload a DoC in PDF format. Gold fields are required for all DoC submissions, regardless of whether you create the DoC online or upload a PDF version.

Upload Existing DoC: [Click here to specify file](#)

Product Name: Vectra XLT

Model Number: D5769A

Product Category: Personal Computers

Region/Trading Group: Australia
China
France
Germany

Bundled Product DoCs: Lapsmart
101AT Keyboard
19" SVGA Monitor
Vectra XLT
Deskjet 1200C
scan-man

Our Unique Value Proposition: We Aim to be The Global Database

Seek maximum leverage for
manufacturers to enter data once
in one database.

Benefits

- Improve completeness, accuracy, and currency
- One-stop for manufacturers and users
- Flexibility
 - Manufacturers can choose to enter data only for TTE DB, or
 - Manufacturers can choose (now or later) to leverage data for other areas.

We Can Meet Your Needs

- Add fields necessary to meet all FCC requirements and U.S. Customs service enforcement needs (as defined by ACTA)
- Be freely accessible to the U.S. government
- Be readily available to the public and accessible by the disabled at nominal or no cost
- Be created and maintained in an equitable and non-discriminatory manner, affording competitive advantage to no entity or industry segment (free from any real or perceived conflict of interest)

Plus from the start, run it ...

- Professionally
- With security and privacy
- And designed-in scalability

We Want to Work with ACTA

- What are ACTA's requirements for managing and operating the TTE Database?
- When does it need to be operational?
- How do we bid for the job?
